Product information

Shoe color: black

Shoe width: W (Wide)

The WARRIOR ALPHA PRO WIDE INT is an ice hockey skate designed for ambitious players who are looking for a stable fit, efficient power transfer, and noticeable comfort during practice and games. The wide W-fit provides more room inside the boot without compromising its athletic performance, and the black design remains classic and understated.

- Product Type: Ice hockey skate
- Fit: W (Wide) for extra width in the forefoot area
- Construction: Sturdy boot with a secure fit
- Comfort: Padded liner for a comfortable fit
- Skating experience: Direct power transfer with good control
- Usage: Training, games, and recreational skating
- Color: Black
- Sizes: EU 37.5 to 41, Skate Size 4 to 6.5

The balance of support and comfort is particularly noticeable during regular ice time. The boot stabilizes the foot during quick changes of direction and when accelerating, while the padding helps prevent pressure points during the demands of daily hockey play. This makes it a great fit for club players and advanced youth players looking for a skate that doesn't feel soft or unstable, but instead provides a controlled, direct feel on the ice.

The wide fit is particularly appealing for feet that often lack enough space in narrower models. The listed EU size and skate size serve as a guide to help you make the right choice.
