4 in stock

Color: black

Bends: W03

Stick size: INT

The WARRIOR COVERT QRE PRO T1 INT is a composite hockey stick designed for ambitious youth and club players who want to release the puck quickly while maintaining a direct feel in their hands. The distinctive tapered shape builds up energy particularly easily during the shot, which supports an explosive and fast shot release.

Product information

- Technology: angular taper geometry for fast energy transfer and a direct feel for the puck
- Construction: Shadow Feel construction for a very well-balanced low-kick stick
- Material: thin, extremely stable carbon fiber with a unidirectional fiber orientation
- Blade core: super-lightweight polymer core for enhanced feel and noticeable feedback
- Shooting characteristics: Low-kick profile with quick release
- Curvature: W03
- Stiffness: 55, 63, or 70
- Version: INT, left- or right-handed, in black

It's especially during intense practice and in tight game situations that you can really see how well balance, feedback, and quick loading work together. The lightweight carbon construction keeps the stick agile, while the blade core ensures clean and controlled contact with the puck. This is especially helpful for players who don't want to take a long wind-up and rely on an immediate feel for the stick during passes, shots, and quick moves on the fly.

When selecting a stick, it's worth taking a close look at the blade angle and appropriate flex to ensure the stick matches your playing style and strength level.
