More than 10 in stock

Color: black

Stick size: SR

The WARRIOR ALPHA LX2 PRO SR is a composite hockey stick designed for ambitious senior players who are looking for a fast release without compromising on stability and control. The Saber Taper-2 design combines the direct power transfer of a low kick point with the support of a mid-kick point. The result is a stick that facilitates both hard shots and precise shots from open play.

Product information

- Technology: Saber Taper-2 with a combination of low-kick and mid-kick characteristics
- Shooting characteristics: supports a fast release, power, and accuracy
- Construction: lightweight and stable material design
- Blade core: super-lightweight polymer core for enhanced puck feel and a crisp shot impulse
- Shaft shape: ergonomically shaped concave shaft
- Variant: SR, black
- Bends: M03 MAX, M28 MAX, W01, W03, W28
- Hardness: 65, 75, 85, 95, each available in left- or right-handed versions

This design really shines during regular training and in competition: The stick lies steadily in the hand, provides a clean feel when guiding the puck, and supports quick movements without any lag. The lightweight blade core facilitates direct contact with the puck, which is noticeable during passes, quick shots, and in tight playing situations.

When selecting a stick, the blade orientation, flex, and stiffness should be tailored to your playing style, physique, and shooting habits.
