Product information

Player hardness: 65
Color: black
Stick size: INT

The WARRIOR QR6 REV INT is a composite hockey stick designed for youth and club players who value a quick release and a direct feel for the puck during regular play. The QR Edge Taper geometry channels flex energy precisely through the hosel, supporting a reactive shooting motion—essential for quick shots taken on the move.

- Technology: QR Edge Taper for a fast release and stable response
- Material: Minimus Carbon UD made from unidirectional carbon fibers
- Construction: T. 122 with a focus on balance, stability, and durability
- Blade: FuelCore polymer core for improved puck feel
- Shaft shape: O.G. Shaft Shape with flat sidewalls and rounded corners
- Size: INT
- Stiffness: 65
- Variants: W03 or W28 curve, left- or right-handed, black

Regular training really highlights just how well-balanced this setup is: The lightweight carbon layup keeps the stick agile, while the FuelCore in the blade provides a crisp feel during puck reception, passing, and shooting. Added to this is a construction designed for durability that provides reliable balance even with frequent use on the ice. The shaft shape fits classically and securely in the hands, which suits many players when making quick transitions.

When selecting a stick, make sure the blade orientation, curvature, and 65 stiffness match your playing style and height.
