Product information

Color: black

Stick size: JR

The WARRIOR LX3 COMP JR is a junior hockey stick designed for young players looking for a well-balanced stick for both practice and games. At 53 inches long, this model clearly falls into the junior category and is ideal for players who have outgrown shorter children's sticks and need more reach and a more mature feel on the ice. Finished in black, its look remains classic and sporty.

- Product Type: Junior Hockey Stick
- Length: 53 inches
- Curvature: W03 or W28
- Stiffness: 30, 40, or 50
- Stick Type: Left or Right
- AgeGroup: JR
- Color: black

Especially for young players, the right setup makes a big difference: The choice between W03 and W28 allows players to tailor the stick to their preferred feel for the ball and their own technique, while the available hardness levels—30, 40, and 50—accommodate different strength levels and stages of development. This allows the stick to be tailored more closely to playing style and body size than with simple entry-level models. For clubs, parents, and young players, this is particularly helpful when the stick is used regularly in training and isn't just intended as a starter model.

Key factors in the selection process include choosing the correct Seiter, the desired curve, and a stiffness that matches the player's current shooting technique and strength level.
