Product information

Color: black

Stick size: INT

The WARRIOR NOVIUM 2 PRO BLACK INT is a hockey stick designed for intermediate-level players looking for a lightweight, responsive feel. Especially during regular practice and in intense game situations, what matters is how quickly the stick responds, how cleanly the puck is controlled, and how reliably power is transferred to the shot.

- Product Type: Ice Hockey Stick
- Construction: ultra-lightweight with reinforced shaft construction
- Playing feel: fast shot release and precise puck control
- Shooting performance: Designed for efficient energy transfer on slap shots
- Curvature: W03 or W28
- Stiffness: 55 or 65
- Blade orientation: left or right
- Size: INT

On the ice, this is particularly noticeable when there's little time to react. The lightweight design facilitates a quick release of the puck, while the shaft construction remains stable even under heavy loads. This is particularly appealing for ambitious youth and club players who are working on their shooting technique, timing, and precise puck control during practice. The black design maintains a sleek and athletic look.

When selecting a stick, it's worth taking a close look at the stiffness, curve, and blade orientation to ensure the stick matches your playing style and body size.
