## Product information

---

Color: black

Stick size: SR

The WARRIOR Alpha Dlux PRO SR is a composite hockey stick designed for regular use in practice and games. The senior-sized 63-inch model is designed for adults and ambitious club players who value a direct feel and a harmonious balance between blade curve, stiffness, and side.

- Product Type: Composite hockey stick
- Size: SR, 63 inches
- Stiffness: 75 or 85
- Curve: W03 or W28
- Seiter: left or right
- Color: black
- Applications: Ice hockey, training, and games

Proper stick selection makes a big difference, especially in everyday club play. A 75 hardness typically feels slightly more flexible and provides a lively shooting sensation, while 85 offers more resistance for power shooters. In addition, the W03 and W28 are two common curves that affect puck handling, passing, and shooting differently depending on personal preference. This allows you to choose a stick that better matches your playing style, rather than settling for a generic, one-size-fits-all solution.

When making your selection, the most important factors are the correct side, your preferred bend, and a stiffness that matches your shooting style.
