Product information

Color: black
Bends: W03
Stick size: JR

WARRIOR RISE JR is a junior hockey stick designed for young players who prioritize clean shots, a secure feel for the ball, and consistent performance during practice. The combination of SABRE TAPER and Minimus Carbon is designed to ensure a controlled release, so shots are precise and stable off the blade.

- Technology: SABRE TAPER for a stable, powerful, and controlled release
- Material: Minimus Carbon with a flat-woven carbon design
- Construction: R.L.C. 111 carbon construction with lightweight technology and epoxy resin formulation
- Grip: Soft, grippy grip surface for greater hand control
- Curvature: W03
- Hardness: 30, 40, or 50
- Stick type: left or right
- Size: JR, color black

Especially for junior players, a stick that doesn't unnecessarily complicate technique makes sense. The carbon construction provides a direct feel in various game situations—whether controlling the ball, passing, or shooting. In addition, the lightweight R.L.C.-111 construction offers a good balance of stability and playability, which is noticeable during regular indoor and field hockey training. The non-slip surface helps maintain a steady grip, especially as the pace of the game picks up.

When selecting a stick, it's important to choose the right stiffness and the correct stick type (left- or right-handed) so that the stick matches your playing style and skill level.
