Product information

Color: black

Stick size: SR

The WARRIOR QR7 PRO SR is a composite hockey stick designed for ambitious senior players seeking a direct release and a fast feel. The shaft combines modern construction with a clear focus on shooting dynamics, puck control, and precise feedback in tight game situations.

- Technology: EDGE TAPER with an angular shaft design for direct energy transfer in the lower shaft area
- Blade: EDGE BLADE with a distinctive shape at the ice-contact zone for easier shot loading
- Material: Minimus Carbon 25 in the blade for light weight and a precise feel
- IntendedUse: Performance-level ice hockey in practice and games
- Curves: M03, M28, W03, W28, W90TM
- Hardness: 65, 70, 75, 85
- Blade orientation: Left or right
- Size: SR

This design really shines for club players who want to generate a quick shot despite limited time and space. The angular taper quickly transfers energy to the lower shaft, while the blade picks up the puck cleanly and provides a clear, direct feel during shots and passes. This makes the stick appealing to offensive-minded players, but also to anyone who expects reliable feedback from their equipment during high-intensity play.

When selecting a stick, it's worth taking a close look at the curve, stiffness, and blade orientation to ensure the stick matches your playing style.
