Product information

Color: black

Stick size: JR

The WARRIOR WARRIOR QR7 PRO JR is a junior hockey stick designed for young players looking for a direct shooting feel and precise puck control. The Covert QR7 PRO is designed for rapid energy transfer in the lower shaft area, making it particularly appealing to players who want to take shots in practice and games without a long wind-up.

- Technology: EDGE TAPER for direct power transfer and a stable shot release
- Blade: EDGE BLADE with a distinctive shape for easier loading and a quick release
- Material: Minimus Carbon 25 in the blade for a light, precise feel
- Intended Use: Junior ice hockey with a focus on fast, modern offensive play
- Curvature: W03 or W28
- Hardness: 30, 40, or 50
- Blade orientation: left or right
- Color: black

On the ice, the design really shines when time is tight: quick puck control, short movement paths, and a clean shot from tight angles. The angular taper geometry keeps the stick stable at the lower end, while the special blade shape guides the puck with control as you load up for the shot. This is a good fit for young club players who want to refine their shooting timing while maintaining a precise feel in the blade.

When selecting a stick, consider the appropriate stiffness, the desired bend (W03 or W28), and the correct blade orientation for your preferred grip.
