Product information

Color: navy

WARRIOR ALPHA ONE PRO NAVY is a hockey helmet designed for players looking for a lightweight model with precise protective features for regular practice and games. The one-piece plastic shell keeps the weight down, while strategically placed IM PAX FOAM padding provides targeted support for sensitive areas on the temples, back of the head, and forehead.

- Product Type: Hockey Helmet
- Construction: one-piece plastic shell
- Technology: IM PAX FOAM padding
- Protection areas: Temples, back of the head, and forehead
- Functionality: Absorbs linear and rotational forces of varying intensities
- Adjustment: 270° AdaptFit adjustment system
- Ventilation: optimized air circulation through the shell
- Care/Variants: Washable pads, available for individual replacement; navy in sizes M or L, as well as JR or SR

For club players and ambitious youth players in particular, it's not just protection that matters on the ice, but also a helmet that can be easily and precisely adjusted. The 270° AdaptFit system simplifies the adjustment process, which is noticeably more practical during daily training and when playing multiple games per week. Added to this is the redesigned airflow system, which helps ensure a more comfortable fit during intense play. The separately available pads are also useful when equipment is regularly maintained or used over an extended period.

For a proper fit, choose a size that matches your head circumference and age group (JR or SR).
