Product information

Helmet size 1: SR
Color: white

WARRIOR HC COVERT CF100 WHITE is a hockey helmet for players looking for a snug-fitting, quickly adjustable solution for both practice and games. Especially with regular use, it's important that the helmet sits securely, allows air to circulate, and can be easily adjusted to fit your head shape.

- System: Custom Fit with two inserts for individual adjustment
- Adjustment: Brief heating to optimize the fit to the shape of the head
- Material: EPP lining as the basis of the protective structure
- Adjustment: stepless quick adjustment via side snap flaps
- Ventilation: Integrated ventilation system in the helmet shell
- Benefits: Secure fit, comfortable wear, and airflow around the head
- Color: white
- Size: SR in S, M, or L

The adjustable inserts make a noticeable difference, especially for club players and ambitious junior players in the senior division, because the helmet doesn't just fit on paper—it can be adjusted to more closely match the actual shape of the head. Combined with the lateral fine-tuning, this creates a fit that remains stable during movement without adding unnecessary bulk. The integrated ventilation system helps keep your head cool even during intense training sessions.

To ensure you choose the right size, take a close look at the desired SR size—S, M, or L.
