Product information

Helmet size 1: SR
Color: white

The WARRIOR CF80 WHITE is a helmet with a face guard designed for hockey use and is aimed primarily at players who participate regularly in practice and games and are looking for a clear, straightforward choice of equipment. The white design has a classic look, and the face guard makes the helmet particularly suitable for leagues and training sessions where face protection is required.

- Product Type: Hockey helmet with face guard
- IntendedUse: Hockey training and games
- Construction: Helmet/visor combination
- Color: white
- Age group: SR
- Size: M or L
- Fit: Choose based on head circumference and desired fit

Especially in everyday club play, it's crucial that a helmet's equipment and protective features work together seamlessly. The helmet-and-face-guard combination eliminates the need for separate adjustments and is ideal for players seeking a ready-to-use solution for ice or indoor hockey. For adults and older youth players in the SR age group, this is particularly useful when reliable, full-face head protection is needed on the field or during training.

When choosing between sizes M and L, it's worth checking your head circumference and deciding whether you prefer a snug or a more generous fit.
