Product information

WARRIOR ALPHA PRO SR is a shin and calf guard designed for high-level hockey, intended for players who are looking for a snug, flexible fit with well-structured protection during practice and games. The contoured design remains lightweight while providing targeted coverage of key areas.

- Product Type: Shin and calf guards, size SR
- Protection design: perforated, lightweight, and molded shells for the shin and calf
- Padding: compression-molded EVA IMPAX foam in key impact zones
- Interior: Removable liner with floating knee pad
- Closure: Sling Wrap strap system with Fantom Stretch and new calf strap
- Ankle area: Cloud Cuff foam padding
- Liner technology: STRIKE gel liner with Polygiene technology

On the ice, this model's strengths really shine when mobility and support need to work in harmony. The floating knee pad sits comfortably without unnecessarily restricting the feel of the game, while the strap system keeps the protection securely in place on the leg. The flat-fitting straps make it easy to put the pads on and don't snag on socks, which is especially convenient during regular club activities. Added to this are ventilation provided by the perforated design and a dry, fresh feel thanks to the treated liner.

When selecting a size, make sure to choose the correct SR size and ensure a snug fit over the knee, shin, and calf.
