Product information

WARRIOR ALPHA RISE JR is a shin guard designed for youth players and is available in a 10-inch (25 cm) size. For young field players in particular, it's important to have equipment that combines protection during practice and games with ease of use. This junior model fits perfectly into this category and is tailored to the demands of everyday hockey.

- Product Type: Shin guards for hockey
- Age group: Junior
- Model: SG Rise JR
- Size: 10 inches / 25 cm
- Protection area: Shin
- Intended Use: Training and games in youth hockey

Youth hockey often involves lots of repetitions, quick movements, and the first intense one-on-one battles. A shin guard in this category is designed to provide protection exactly where direct contact with the ball or stick may occur, without unnecessarily restricting freedom of movement. For parents and club staff, it's especially important that the equipment clearly fits junior sizes and integrates seamlessly with the player's existing hockey gear.

When selecting shin guards, the length—10 inches or 25 cm—should be appropriate for the player's height and the rest of their protective gear.
