Product information

WARRIOR ALPHA RISE YT is a shin guard for youth hockey players, designed for 8 inches or 20 cm. Especially at the junior level, it's important to have equipment that effectively balances protection and freedom of movement so that training and games aren't unnecessarily restricted.

- Product Type: Shin guards for hockey
- Model: ALPHA RISE YT
- Age Group: YT, designed for youth players
- Size: 8 inches / 20 cm
- Protection area: Shin
- IntendedUse: Hockey training and games

With its compact size, this model is particularly well-suited for younger players for whom a snug fit is especially important. A shin guard must fit securely in hockey without getting in the way during runs, changes of direction, or in tight game situations. This is precisely why the right junior size is so important: it provides adequate coverage while allowing for natural movement on the field.

For parents and youth teams, the measurement of 8 inches or 20 cm is the key guide when making a selection. The length should match the player's height and the rest of their protective gear.
