Product information

WARRIOR ALPHA PRO BLACK SR is a shin guard for senior players that clearly prioritizes protection, fit, and freedom of movement. Especially during regular practice and games, it's important that the shin guard remains stable even during quick changes of direction and reliably protects the lower leg.

- Technology: compression-molded IMPAX foam in key impact zones
- Protection area: perforated, lightweight, and contoured shell with additional coverage on the shin and calf
- Inner padding: removable liner with floating Sub-Cell knee area
- Closure: Sling Wrap strap system with Fantom Stretch
- Fit: specially designed shape for a secure and comfortable fit
- Straps: Lay Flat Straps that lie flat against the skin
- Size: SR
- Color: Black

In everyday hockey play, the interplay of the design really stands out: The pad fits snugly against the leg without adding unnecessary bulk and remains comfortable to wear even under socks. The removable inner padding makes it easy to put on and take off, while the free-floating knee area noticeably improves comfort. Together with the flexible strap system, this creates a secure fit that doesn't require constant readjustment during intense training sessions. The perforated shell also helps make the pad feel lighter to wear.

When selecting a size, make sure the senior size matches your leg length and the rest of your protective gear.
