Product information

WARRIOR ALPHA PRO BLACK JR is a shin guard designed for youth athletes that offers a high level of protection, support, and comfort. Especially during regular practice and games, it's important to have gear that fits securely and doesn't unnecessarily restrict movement. That's exactly where this model comes in, with a newly optimized design.

- Technology: Max Protect with perforated, lightweight, and contoured protective panels
- Protection: Slash and calf protection with additional coverage in key impact zones
- Cushioning: compression-molded IMPAX foam
- Comfort: Removable inner padding with a floating Sub-Cell knee area
- Fit: Specially developed shape with Sling Wrap strap system
- Closure: Phantom Stretch and low-profile Lay Flat straps
- AgeGroup: JR
- Color: Black

In everyday hockey play, the difference is most noticeable during frequent changes of direction, stops, and tight game situations. Thanks to the Sling Wrap system, the protective gear stays close to the leg, while the floating knee area makes it noticeably more comfortable to wear. Added to this are low-profile straps that are easy to use and sit neatly under the socks. For young players and parents who prioritize not only protection but also everyday comfort in their gear, this is a perfect combination.

When selecting a size, be sure to check the appropriate JR size to ensure that the knee area, shin, and calf are properly covered.
