Product information

Glove color: red

The WARRIOR LX2 MAX RED SR is a hockey glove designed for regular use on the field or in the arena, when a secure grip on the stick and a comfortable fit are essential for everyday play. The red version makes a bold statement, while the senior sizes are particularly appealing to adult club players and ambitious youth players transitioning to the senior level.

- Product Type: Hockey Glove
- Model: LX2 MAX
- AgeGroup: SR
- Color: red
- Sizes: 13 inches, 14 inches
- IntendedUse: Practice and Game
- Fit: Size-dependent for the senior range

In hockey, in particular, a glove makes sense when it doesn't unnecessarily restrict hand movement and preserves the feel of the stick. This is especially important for a model like the LX2 MAX, because during practice, when receiving the ball, and in tight game situations, every movement is controlled directly through the hands. Players who take the field several times a week therefore look not only for protection but also for how natural the grip on the stick feels.

When choosing a glove, the right size is key: the 13-inch size is more compact, while the 14-inch size generally offers a bit more length and room for senior players.
