## Product information

---

Glove color: black

The WARRIOR QR7 BLACK SR is an ice hockey glove designed for players who seek a direct feel for the stick during regular practice and games, without sacrificing mobility or reliable protection during contact. The snug Covert Taper fit hugs the wrist and hand closely, ensuring the glove stays stable and controlled during quick passes, shots, and changes of direction.

- System: Covert Taper Fit
- Thumb Construction: AXYFlex Thumb
- Feel: Buttersoft Feel with Lycra inserts and an anatomical stretch back
- Construction: Exo+ Duo-Lam with HD-VN foam and medium-density foam
- Benefits: High mobility, good dexterity, and direct stick control
- AgeGroup: SR
- Size: 13 inches or 14 inches
- Color: black

This design is particularly appealing to club players who want equipment that doesn't feel stiff. The movable thumb and flexible inserts support natural hand movements, which is especially noticeable during quick repositioning and in tight game situations. At the same time, the multi-layered foam construction adds substance to the top of the glove without making the overall feel unnecessarily heavy. The "ready-to-play" feel from the very first time you put it on is ideal for players who want to hit the ice without a long break-in period.

When selecting a size within the SR line, be sure to choose the desired size—13 inches or 14 inches—so that the fit and range of motion suit your hand.
