More than 10 in stock

Goalkeeper color: black

Goalkeeper size: SR

The WARRIOR X4 PRO SR is a goalkeeper chest protector designed for regular use in ice hockey, where protection and mobility must work seamlessly together. Especially during practice and games, when shots come from close range and the arms are moving actively, a design that provides good coverage for the upper body without restricting movement is essential.

Product information

- Product Type: Senior Goalie Chest & Arm Protector
- Protection Areas: Chest, shoulders, biceps, and elbows
- Technology: HyperComp-reinforced shoulder areas and HyperComp cap with X-Foam reinforcement
- Arm Construction: Shockshield bicep protection and AxyFlex Light at the elbow
- Fit: Side Velcro closures with removable extensions at the front and sides
- Construction: Block design in the chest area with a slim silhouette
- Size: SR in protective sizes S, M, L, and XL
- Color: black

The shoulder area is designed for additional protection without making the upper body appear unnecessarily wide. This is particularly noticeable when actively moving toward the puck and the arms need to move freely. In the chest area, Warrior features a block-style protective zone, while the elbows and upper arms remain flexible. For club-level goalies, the adjustable fit is also a key feature, as it allows the setup to be better tailored to body shape and other equipment.

When choosing a size, it's worth taking a close look at the fit in the shoulder and arm areas to ensure that freedom of movement and coverage go hand in hand.
