Goalkeeper color: white

Goalkeeper size: SR

WARRIOR G7 PRO SR Goalie Leg Pads are designed for senior-level goalies who want to combine quick movements between the posts with a sturdy pad construction during practice and games. A notable feature is the reinforced thigh area with high-density impact foam and HyperComp, Warrior's carbon composite material, which is designed to reduce weight and maintain rebound properties.

Product information

- Product Type: Goalie leg pads for ice hockey goalies
- Technology: HyperComp in the thigh area and in the Knee Drive System
- Construction: Reinforced thigh area with high-density impact foam
- Knee system: Knee Drive System with a wide, soft knee pad, removable strap behind the knee, and knee wings
- Glide Performance: Polycarbonate SlidePlates on each knee block to reduce friction
- Adjustment: SlidePlates can be removed if necessary
- Size: SR
- Color: white

This design really makes a difference in everyday play, especially for goalies who frequently go into the butterfly position and move sideways. The SlidePlates facilitate smooth gliding, while the wide knee block provides stable support in the knee area. The fact that HyperComp is used not only in the pad body but also in the Knee Drive System makes it a great fit for players who prioritize a direct, responsive feel during regular play.

When choosing SR-sized goalie leg pads, the fit should complement the rest of the goalie's equipment and their preferred playing style.
