Product information

Goalkeeper color: black

Goalkeeper size: SR

WARRIOR X5 RTL BLACK SR are goalkeeper pants designed for regular use in ice hockey, where protection, mobility, and a snug fit must all come together in the goal crease. Especially when using the butterfly position and making tight moves in front of the post, it's crucial that the pants provide good coverage without unnecessarily restricting movement.

- Protection Package: Internal protection system with HyperComp and lightweight HD foam
- Protection Area: Segmented hip and kidney protection with a contoured waist
- Freedom of Movement: Streamlined, rounded thigh area
- Construction: AxyCut on the lower outer edge to prevent snagging on leg pads
- Fit: Internal strap system with dual adjustment options
- Compatibility: Easily removable for seamless integration of chest and arm protection
- Fastening: Nylon loops and sturdy buttons for suspenders
- Variant: Black, size SR, goalkeeper sizes L through XXL

The strength of this design really shines during gameplay, especially when frequent quick changes of direction and deep goalkeeper movements are required. The rounded thigh area supports unrestricted movement, while the lower cut is shaped to ensure a clean fit with the shin guards. Added to this is a protective structure that specifically covers key areas around the hips and kidneys. For club players and ambitious goalies, the adjustable strap system is also important because it ensures the pants stay securely in place and can be better coordinated with the rest of the equipment.

When selecting a pair, the SR model should match the rest of your goalie gear and provide the desired fit around the waist and thighs.
