Product information

Color: black
Bends: TWT Curve
Stick size: SR

The WARRIOR COVERT QR SR is a goalie stick designed for goalies who want to react quickly when building plays and clear the puck cleanly from the danger zone. The low-kick flex profile supports quick shot release, while high passes can be played with control and minimal effort.

- Flex profile: Low-kick for quick releases and high passes
- Shaft geometry: asymmetrical for greater control with the lower hand
- On-ice benefits: greater leverage, more precise puck control, and stable feedback
- Material: Minimus Carbon 25 with flat spread-tow weave
- Construction: thin and lightweight with high stability and durability
- Grip: SlideGrip with textured shoulder zone
- Curve: TWT Curve
- Variant: SR, black, available in Regular and Fullright

The combination of a fast flex response, controlled shaft handling, and a robust carbon construction really shines during practice and in tight game situations. The asymmetrical shape supports control with the lower hand, bringing stability to the goalie's play during passes, rebounds, and precise puck handling. Added to this is the textured shoulder zone, which provides extra grip when you need to keep a firm hold on the stick under pressure.

When selecting a stick, pay attention to your catching hand: "Regular" and "Fullright" differ in their orientation for each goalie's side.
