Goalkeeper color: white

WARRIOR CAT EYE F2 WHITE is a replacement visor for goalies who want a clear, hockey-specific solution when replacing their mask. The Cat-Eye design is particularly popular among goalies when an unobstructed field of vision and a direct view of the ball or the flow of the game are crucial on the ice. In white, the grille visually complements coordinating mask setups.

- Product Type: Replacement grille for goalie mask
- Model: Cat Eye F2
- Certification: Non-Cert

Product information

- AgeGroup: SR
- Size: 1
- Color: white
- IntendedUse: Floorball Goalie

Especially during regular training and matches, having a suitable replacement faceplate is useful when you need to replace an existing one or specifically upgrade your mask setup. The Cat-Eye shape is designed primarily for experienced goalies and ambitious club players who place great importance on an unobstructed view for reaction time and game awareness. At the same time, the product description is intentionally brief regarding specific technical details: it mentions the F2 model, the senior classification, and size 1.

When making a selection, compatibility with the existing WARRIOR mask or the appropriate F2 setup should be verified.
