Product information

Textile dye: toxic

Textile size-1: JR

The WARRIOR SHIRT L/S COMP TOXIC JR is a form-fitting long-sleeve shirt for young hockey players who need a close-fitting, functional base layer for practice or to wear under their gear. The WarTech moisture-wicking system helps keep you dry, while the mesh fabric effectively enhances breathability during high-intensity activity.

- System: WarTech Moisture-Wicking System
- Product Type: Long-sleeve compression shirt for juniors
- Fit: form-fitting
- Material: 86% polyester, 14% spandex
- Construction: mesh fabric
- Intended Use: Hockey training, games, and as a base layer under protective gear
- Color: toxic
- Sizes: JR in S, M, L, and XL

Especially for junior players, it's important to have clothing that moves with you smoothly and doesn't get in the way under shoulder pads or a jersey. The stretchy material fits snugly against the body without adding unnecessary bulk, making it particularly suitable for young club players with regular ice time. Thanks to the combination of polyester, spandex, and open-weave fabric, the shirt remains comfortable and functional even during intense training sessions.

Because of the snug fit, it's worth taking a quick look at the desired size, especially if the shirt will be worn directly under other protective gear.
