Club players and those who train regularly look for a balance of mobility, fit, and everyday practicality in hockey pants—whether playing indoors or on the ice. The lightweight micro-polyester fabric meets these needs because it's comfortable to wear and, together with the WarTech system, wicks moisture away from the body. This ensures the pants stay comfortable even when sessions run longer or the pace picks up. The relaxed fit supports natural movements while skating, braking, and in tight game situations.

The SR version is designed for adults; when selecting a size, consider your preferred fit and the space needed over your protective gear.
