Product information

Sports Nutrition:	Muscles & Musculoskeletal System
Feature:	Neutral

NUTRIATHLETIC NA COLLAGEN POWDER is a neutral-tasting collagen powder designed to support muscle and musculoskeletal health. Especially in hockey—with its many changes of direction, sprints, and repetitive stress during training or games—athletes often consciously supplement their diets to support recovery and endurance. The neutral flavor makes it easy to incorporate into your daily routine.

- Product Type: Collagen Powder
- Flavor: Neutral
- Intended Use: Sports nutrition for muscles and the musculoskeletal system
- Everyday use: Mixes well with drinks or food
- Variant: Neutral Flavor

A neutral powder is particularly practical for active hockey players who train regularly, as it can be used flexibly without a dominant flavor. This works well during periods with multiple training sessions per week, when you want to keep your nutrition routine simple and consistent. Even in the day-to-day life of a sports club, when there’s little time left between work, practice, and games, a neutral-flavored sports nutrition product is often easier to integrate into existing routines than strongly flavored varieties.

If you’re particular about taste or want to combine the powder with pre-flavored shakes, yogurt, or other foods, the neutral version is the right choice.
