Product information

Feature: Sicilian Lemon

NUTRIATHLETIC NA FUEL ENDURANCE is a carbohydrate product designed for long-duration endurance activities and is particularly well-suited for situations where a steady energy supply is needed throughout extended sessions. The Sicilian Lemon flavor adds a fresh, citrusy note to training and competition.

- Product Type: Carbohydrate product for endurance activities
- System: optimized carb matrix
- Intended use: longer training and competition sessions
- Flavor: Sicilian Lemon
- Net weight: 1500 g
- Usage: For energy supply during sustained exertion

Carbohydrate intake plays a particularly important role in sports involving long periods of exertion, intense intervals, or consecutive sessions. Carb-Matrix is designed for endurance sports and is therefore particularly appealing to ambitious endurance athletes as well as club athletes who train regularly and plan their nutrition specifically for longer sessions. The fresh lemon flavor has a pleasantly crisp taste and is well-suited for training phases where sweet flavors are less desirable.

For those looking to stock up for regular workouts or longer training phases, the 1,500-gram container is a practical choice.
