in Delivery between **Thu 29. Oct - Mon 02. Nov 2026**

2 in stock

Color: brown

Stock type: Links

The FRONTIER X-OVER Blade is a replacement blade for hockey players who want to fine-tune their setup for the right feel and blade angle. The left-handed version is suitable for sticks with a compatible mount and is particularly appealing to players who want to replace a worn-out blade during practice or a game. The brown color scheme complements the design in a understated way.

- Product Type: Replacement blade for hockey sticks
- Model: X-OVER Blade
- Blade orientation: left
- Intended use: Hockey training and games
- Construction: Interchangeable blade for replacing an existing blade
- Color: brown

The blade is subjected to heavy wear, especially during regular indoor play or training sessions. A single replacement blade is therefore particularly appealing to club players and teams who want to selectively upgrade their equipment rather than replace it entirely. The X-OVER model fits well into this category: It preserves the familiar stick geometry during everyday play and makes replacement easier when the old blade wears out after numerous ball contacts, stops, and shots.

It's important to ensure compatibility with your existing stick and to verify that the blade is oriented correctly (left-handed).
