Textile size-1: JR

Textile size: XXL

CCM ORTHOMOVE is an insole for hockey skates that focuses more on the fit within the boot. Especially during regular training or long sessions on the ice, a well-balanced insole makes a noticeable difference because it keeps the foot more stable in the shoe and improves the overall fit. This version of the insole is listed in size XXL and is additionally marked "JR."

- Product Type: Insole for hockey skates
- Model: Orthomove

Product information

- Intended use: Ice hockey, training, and games
- Fit: To adjust the fit inside the shoe
- Size: XXL
- Additional information: JR
- Contents: 1 pair of insoles

Especially for young players in club settings and when changing equipment, it's worth taking a closer look at the insole, as it directly affects how the foot sits in the skate boot. A properly fitting insole can help distribute pressure more evenly and maintain a clearer feel inside the boot without altering the skate's characteristics. This is particularly helpful when a boot fits well overall but needs further fine-tuning on the inside.

The size specifications should be checked against the hockey skate being used to ensure the insole fits snugly inside the skate.
