MARSBLADE O1 KRAFT TEAM SR is an off-ice chassis designed for hockey players who want to bring that on-ice feel to their summer training or additional off-ice sessions. Available in skate size 9, size SR, and width D (Regular), this model is

Product information

designed for senior players for whom a comfortable fit and a natural feel of movement are crucial.

- Product Type: Off-ice chassis for hockey skates
- System: Marsblade O1 with flexible rocker construction
- Functionality: Supports forward and backward movement similar to ice skating
- Training benefits: promotes balance, edge control, and hockey-specific movement patterns off the ice
- AgeGroup: SR
- Skate Size: 9
- Fit: D (Regular)

Especially for club players who want to work on their posture, weight transfer, and skating rhythm even without ice time, the O1 system offers a clear advantage over rigid standard frames. The flexible design responds more actively to your skating style, making off-ice sessions feel more like your usual routine on the ice. This is particularly beneficial when dryland training needs to be structured not only for conditioning but also for technical development.

When selecting a pair, it's important to ensure the right match between shoe size and chassis size. This model is designed for Skate Size 9 in SR with a Regular width.
