Accessory size: JR

TRUE TENDON GUARD CATALYST in size JR is a tendon guard designed for junior players and complements goalkeeper gear in situations where a lot of movement behind the leg is required during practice and games. Especially in youth hockey, clean, well-fitting equipment is essential to ensure that protection and mobility work together effectively.

- Product Type: Tendon guard for hockey goalies
- Intended Use: Protection for the lower leg and heel area on the goalie pad
- Size: JR

Product information

- Age Group: Junior
- Package Contents: 1 pair
- Compatibility: For hockey goalie equipment

A tendon guard is especially important for young goalies who train regularly and need reliable protection during movements such as the butterfly, standing up, or lateral shifts. The JR version is designed for young players as well as parents or teams who prioritize a clear sizing system when selecting equipment. Supplied as a pair, the gear can be used consistently on both sides, which is practical for everyday club use and when switching equipment.

To ensure a cohesive look, the junior size should match the player's existing goalie gear.
