The EXEL OEB BIATHLON WORLD CUP STRAP is a single replacement strap for biathlon poles and is primarily designed for club sports, regular training, and organized daily competition. Especially during many repetitions, a snugly fitting strap makes a noticeable difference because the pole sits more securely in your hand and your movement remains smooth and consistent.

- Product Type: Pole Strap for Biathlon
- IntendedUse: Training and Competition
- Function: Ensures the pole stays securely in the hand
- Training benefit: Consistent power transfer during repeated exertion

Product information

- Compatibility: Suitable for most EXEL biathlon pole systems
- Package Contents: 1 piece

In everyday club use, straps are among the parts that wear out over time. A matching replacement strap helps keep existing pole systems in working order without having to replace the entire set of equipment. This is especially practical for runners with a consistent training schedule, as well as for coaches who want to supplement their equipment effectively.

Since this is sold as a single unit, it's worth taking a quick look at your existing EXEL grip and pole system.
