Product information

Brand: EXEL

The EXEL NW ALL TERRAIN TIP is a pole tip designed for Nordic walking poles when reliable contact is needed on varying terrain. Especially during regular training on trails, gravel, or uneven terrain, the tip plays a crucial role in ensuring smooth pole use and a stable feel with every push-off.

- **Product Type:** Replacement tip for Nordic walking poles
- **Intended use:** All-terrain, for various surfaces
- **Compatibility:** Compatible with the EXEL Nordic walking range; check compatibility with the pole mount
- **Benefits:** Promotes secure ground contact and controlled pole use
- **Package Contents:** 2 pieces

In everyday training, a properly fitting tip is especially noticeable when the pole grips the ground cleanly and the movement remains smooth. For ambitious Nordic walking athletes, as well as for clubs or those who train regularly, a functional replacement part is well worth the investment to ensure that the equipment remains in top condition even with frequent use. The all-terrain design is well-suited for routes where the terrain isn't always the same.

Before replacing the tip, briefly check the pole's socket to ensure the tip fits the existing design.
