Product information

Shoe size Europe: 29-32

TEMPISH INLINE CLIPS BLACK/GRAY JR is an adjustable inline skate for children who are just starting out with recreational or fitness skating, or who are already a bit more confident on the rink. The size-adjustable design (EU 29-32) is especially practical for growing feet, as the skate can accommodate several shoe sizes.

- Product Type: Children's inline skates for recreational and fitness skating
- Adjustment: lateral size adjustment via a button, up to 4 sizes
- Construction: Sturdy plastic shell with built-in shoe
- Ventilation: Integrated ventilation system in the shoe
- Chassis: Plastic chassis
- Wheel size: 64 mm in sizes 29-32
- Ball bearings: ABEC 5
- Inner length: 18.0 to 20.0 cm

When it comes to actual use, what matters most is a straightforward skate that's easy to adjust and gives kids a stable feel. The sturdy shell supports the foot, while the integrated liner and ventilation system ensure comfort during longer rides. The 64-mm wheels on the smallest model are well-suited to junior sizes and promote controlled handling, which appeals to beginners as well as children with a bit more experience.

To help you choose, check the inner length range of 18.0 to 20.0 cm to ensure the skate fits neither too tightly nor too loosely for everyday use.
