The CCM SPARE PARTS SET FOR ALUMINUM CHASSIS is useful when you need to properly repair an existing chassis for everyday use in roller hockey or inline hockey. Especially for equipment used regularly in club play or during training, a suitable spare parts set is worthwhile to ensure that the aluminum chassis 453 3007 remains ready for use and does not have to be replaced due to small missing parts.

- Product Type: Spare Parts Set for Chassis
- Compatible with: Aluminum Chassis 453 3007
- Application: Repair and replacement of existing chassis components
- Design: tailored to an aluminum chassis

Product information

- Sport: Roller hockey
- Contents: Replacement parts set; specific components not listed

For teams, coaches, or players with a lot of equipment in circulation, a set like this is particularly practical because it allows for the targeted replacement of worn-out parts or missing small components. This saves time and effort when maintaining equipment and helps ensure that a tried-and-true chassis can continue to be used. In everyday hockey, this is often crucial to ensure that equipment functions reliably between practice, games, and maintenance.

It is important to ensure compatibility with the Aluminum Chassis 453 3007 so that the parts fit together correctly during assembly and setup.
