LABEDA Wheels Labeda Gripper Extreme Soft Blue 72 mm is designed for inline hockey players looking for a softer wheel setup that offers plenty of grip and a controlled riding experience. The 72-mm version works well with small- to medium-sized frame setups and is particularly well-suited for regular indoor training sessions where quick changes of direction need

Product information

to be executed cleanly using the edge of the wheel.

- Product Type: Inline hockey wheels
- Series: Gripper Extreme Soft
- Hardness: Soft version for high grip
- IntendedUse: Inline hockey and indoor use
- Size: 72 mm
- Color: blue
- Package Contents: 4 wheels

In hockey, in particular, a softer wheel makes sense in situations where acceleration, tight turns, and secure grip are more important than the hardest possible roll. In this version, the wheel promotes a direct, low-to-the-ground riding feel that particularly benefits club players and ambitious young players when cornering and in dynamic game situations. As a 4-pack, this set is well-suited for replacing a partial set of wheels or for frames that are used with different wheel sizes.

Before installation, it's worth taking a quick look at the chassis, existing wheel sizes, and the planned mix within the setup.
