LABEDA Wheels Labeda Gripper Extreme Hard White 72 mm is a set of four inline hockey wheels designed for players who specifically seek a hard ride during regular training or everyday club play. The 72-mm version is well-suited for setups that require a direct rolling feel and precise handling.

Product information

- Product Type: Inline hockey wheels
- Model: Gripper Extreme Hard
- Diameter: 72 mm
- Hardness: hard version
- Color: white
- Package Contents: 4 wheels
- Applications: Inline hockey and roller training

Especially during more intense sessions, it matters how precisely a skate responds to changes in direction, acceleration, and pressure build-up. A hard wheel offers a more direct response and is therefore primarily intended for experienced players or teams that deliberately fine-tune their chassis. The 72-mm size is a common choice in hockey and can be easily integrated into existing wheel sets when replacing individual wheels or rebuilding a setup. The white version offers a simple and sporty look.

Before installation, it's worth taking a quick look at your frame and the wheel size you've been using to ensure the diameter fits your skate.
