Product information

Accessory size: 72

Accessory color: white

LABEDA Wheels Labeda Gripper Soft White 72 mm (4-pack) are inline hockey wheels designed for players who want a responsive ride when accelerating, making tight turns, and changing direction quickly. The white soft version is designed for grip and is well-suited for regular training as well as indoor play.

- Product Type: Hockey wheels for inline skates
- Series: Labeda Gripper
- Hardness: Soft
- Size: 72 mm
- Color: White
- Package Contents: 4 wheels
- Applications: Inline hockey and indoor use

Club players and ambitious training groups in particular look for more than just the right size in wheels; they prioritize the balance between grip and maneuverability. A softer wheel helps facilitate controlled power transfer, which is especially noticeable during accelerations, stops, and lateral movements. The 72 mm size is ideal for setups that require a compact wheel size, such as those designed for agile handling and a low, close-to-the-ground feel.

Before installation, it's worth taking a quick look at the chassis, axles, and the intended wheel size for the skate.
