Accessory size: 72

LABEDA WHEELS GRIPPER X-SOFT in 72 mm is designed for players who prefer inline hockey wheels with plenty of grip. The X-soft version is designed for grip and is particularly well-suited for indoor conditions, where direct contact with the surface and a controlled riding experience are essential. The green version comes in a set of 4.

- Product Type: Inline hockey wheels
- Model: Gripper X-SOFT
- Hardness: X-soft, designed for high grip

Product information

- Size: 72 mm
- Color: Green
- IntendedUse: Inline hockey on indoor surfaces
- Package Contents: 4 wheels

A soft wheel is particularly useful during practice and games when sharp changes of direction, quick stops, and a secure feeling when cornering are key. At 72 mm, this wheel is particularly well-suited for setups that require smaller diameters, depending on the frame and wheel position. For club players and teams that specifically tailor their wheels to the playing surface and skating style, this model is an attractive option within the Gripper series.

Before installation, make sure the wheel size is compatible with the chassis you're using and your current skate setup.
