Product information

Shoe size Europe: 46

The ASICS GT-2000 12 MEN in EU 46 is a running shoe designed for regular training when reliable support is needed during long runs or frequent running sessions. Especially for those seeking stability in their daily running routine without sacrificing a soft ride, this shoe offers a well-balanced combination of guidance and cushioning.

- Technology: 3D GUIDANCE SYSTEM
- Cushioning: PureGEL technology and FF BLAST PLUS foam
- Feel: stable, naturally guided stride
- Training Benefits: Greater comfort during regular runs
- Support: Designed for additional stability
- Product Type: Men's Running Shoe
- Size: EU 46

This is especially noticeable during training when your legs get tired but you still want to maintain a smooth stride. The 3D GUIDANCE SYSTEM supports your movement as you land and helps keep your run smooth and controlled. Added to this are PureGEL and FF BLAST PLUS Foam, which allow the shoe to roll smoothly without sacrificing stability. This makes this model particularly well-suited for runners who prioritize comfort and precise guidance during regular training sessions.

When selecting a pair, in addition to length, be sure to consider the fit you're used to in your running shoes.
