Textile size: XS

The EXEL TIEFSCHUTZ G MAX in size XS is a jock with a cup designed for hockey, focusing on protection and a secure fit. Especially during practice and games, this piece of equipment needs to fit perfectly right away and stay securely in place. The compact XS version is particularly useful when a smaller fit is required.

- Product Type: Jock with Cup
- Protection area: Groin protection for hockey and indoor sports
- Construction: Jock strap with integrated cup

Product information

- Fit: Designed for the smaller XS size
- Uses: Training, games, and youth sports, depending on the appropriate size
- Variant: G MAX, XS

A jock with a cup remains comfortable to wear, especially when it strikes the right balance between support and freedom of movement. That's exactly what matters in hockey: during quick changes of direction, in tight situations in front of the goal, or during regular club practice. EXEL's G-MAX model is a classic solution for this piece of equipment, featuring a clean design that integrates seamlessly with existing protective gear.

It's important to choose the right size so that the jockstrap fits securely and doesn't get in the way under the rest of your gear.
