Product information

Color: neon green
Stock type: Right
Floorball hardness: soft

EXEL ICE NEON GREEN is a floorball stick designed for players who are looking to replace their current stick and want a direct, controlled feel for the ball. The R ICE SB model in neon green is designed for right-handed play and features a soft flex, which feels particularly comfortable during clean ball control and precise play in tight situations.

- Product Type: Floorball blade
- Model: ICE SB
- Blade orientation: right
- Hardness: soft
- Intended use: Floorball training and games
- Color: neon green

Especially when playing regularly indoors, the balance between blade shape and hardness plays an important role. A softer blade often feels slightly more flexible during technical maneuvers, which suits many players when dribbling, carrying the ball, and making controlled passes. If you already play with a right-handed blade and want to maintain your familiar feel, you'll find a suitable EXEL blade here for an easy replacement.

It's important to choose the correct blade orientation: "right" means that the end of the blade points to the left when holding the stick in the standard grip.
