Color: black

Helmet size: M

WALL W5F MATT BLACK is a lightweight ice hockey mask designed for regular use in practice and games, prioritizing clear vision, comfortable ventilation, and a flexible fit. The narrow chin area provides space for clear lines of sight and supports natural head movements, which is particularly noticeable for goalies at the youth or club level during their daily routine on the ice.

Product information

- Product Type: Ice Hockey Mask
- Construction: lightweight and durable design
- Field of view: narrow chin area for excellent visibility
- Freedom of Movement: Supports unrestricted head movement
- Ventilation: very good air circulation
- Mesh: stainless steel, lightweight and sturdy
- Size: M
- Includes: Sweatband and carrying bag

On the ice, what matters most in a mask isn't just protection, but also how smooth and natural your movements feel. That's exactly where this model shines: Its lightweight design reduces strain during longer sessions, while the stainless steel grille keeps your forward view unobstructed. Combined with the excellent ventilation, this creates a piece of equipment that's particularly well-suited for goalies who train regularly and are looking for a functional, no-fuss solution. The black, matte finish has a understated and athletic look.

When selecting a size, size M should fit the shape of your head and complement the rest of your goalkeeper gear.
