Floorball hardness: soft

Product information

EXEL E-FECT PINK is a floorball stick designed for players who prefer a softer feel when handling the ball. The left-handed version and its soft flex are particularly well-suited for training sessions, technical drills, and game situations that call for precise handling and controlled first contact. In neon pink, this model also makes a bold visual statement.

- Product Type: Floorball Blade
- Model: E-FECT SB
- Stick Type: Left-handed
- Hardness: soft
- Intended use: Ball control, passing, and technical training
- Color: neon pink
- Brand: EXEL

A softer floorball stick often provides a more refined feel when in contact with the ball or a hole ball, which benefits many youth and club players in their technical development. Especially during regular indoor training, when passes need to be received cleanly and shots need to be set up with precision, a direct feel at the blade is crucial. The E-FECT shape is therefore designed for players who aren't looking for an unnecessarily stiff feel and who value a blade that's easy to control.

An important factor in your selection is the correct blade orientation: This version is designed for left-handed players.
