2 in stock

Player hardness: 55
Color: black
Stick type: Right
Bends: W03

Product information

Brand: WARRIOR

Stick size: INT

The WARRIOR COVERT QRE 10 INT is a composite hockey stick designed for youth and club players who are looking for a quick release and want to feel the puck close to the blade. In the Intermediate version—with a flex rating of 55, right-handed blade orientation, and W03 bend—this model is designed for players who want to generate speed with minimal backswing during practice and games.

- Technology: Low-kick construction with an angular taper shape for a quick shot release
- Taper geometry: supports energy transfer and improves puck feel
- Construction: Thin, unidirectional carbon fiber for light weight and balanced handling
- System: Shadow Feel construction for better feel, control, and feedback
- Blade core: Super-lightweight polymer core for a more direct feel on the puck and more pop on the shot
- Curvature: W03
- Stiffness: 55
- Variant: INT, right-handed, black

On the ice, this stick's character really shines in tight game situations when you need to get a shot off quickly. The optimized tapered shape quickly loads the shaft, while the balanced construction ensures smooth handling. Added to this is a blade that provides clearer feedback on puck contact, which is particularly noticeable during direct shots, quick passes, and wrist shots.

The 55 stiffness rating and the INT model should be suited to your height, strength, and preferred playing style.
