Product information

Bends: W03

Stick size: INT

The WARRIOR ALPHA LX2 PRO INT is a hockey stick designed for intermediate-level players who don't want to have to choose between a quick release and a powerful shot during a shootout. The Saber Taper-2 design combines low-kick and mid-kick characteristics, allowing wrist shots to come off quickly and providing clean support for harder shots.

- Technology: Saber Taper-2 with a combination of low-kick and mid-kick
- Shooting Performance: Faster release, hard shots, and greater accuracy
- Construction: lightweight and durable material
- Blade core: super-lightweight polymer core for better puck feel and a crisp shot
- Shaft shape: ergonomically shaped and concave for a comfortable grip
- Curvature: W03
- Hardness: 55
- Variant: Right-handed, INT, 57 inches, black

This setup's balance really shines during regular practice and games. The shaft geometry sits comfortably in the hand, which is a noticeable help during tight puck control and fast-paced play. Added to this is a blade core that makes puck contact feel more direct and gives shots a distinct, crisp impact. This model is particularly appealing to ambitious youth and club players looking for a light feel with stable feedback.

When selecting this model, be sure to match the blade orientation, Flex 55, and the 57-inch length to your own physique and skill level.
