2 in stock

Brand: CCM

Color: red

Helmet size: L

The CCM HT 910 is an ice hockey helmet designed for players who prioritize a sophisticated protection system during regular practice and games. This model is the result of years of research, development, and field testing. The red version in size L is designed for ambitious club players who need a helmet that combines protection, comfort, and a secure fit.

Product information

- Product Type: Ice Hockey Helmet
- Technology: Pro-Grade technologies for protection and comfort
- Development: Developed in collaboration with the University of Ottawa's Neurotrauma Impact Science Lab
- IntendedUse: Ice hockey training and games
- Fit: Size L
- Color: red

It's especially on the ice that you realize how important it is to have a helmet that not only protects but also remains comfortable to wear during long sessions. The CCM Tacks 910 combines scientifically grounded development with a clear focus on everyday hockey life. This makes it particularly appealing to players who train several times a week and aren't looking for a simple, off-the-shelf solution when it comes to their equipment. The close collaboration with the research lab in Ottawa underscores how thoroughly CCM has tailored this model to the demands of modern ice hockey.

For a snug fit, helmet size L should match your head shape and circumference.
