Color: clear

CCM PLEXI VR PRO CUT CE is a hockey visor for players who value a clear view on the ice and a clean helmet setup. The clear design is scratch-resistant and anti-glare, and features a premium anti-fog coating. This ensures that your field of vision remains as clear and unobstructed as possible, even during intense game situations.

- Product Type: Straight Visor for Ice Hockey Helmets
- Surface: scratch-resistant and anti-glare
- Coating: Premium anti-fog

Product information

- Construction: with spacer
- Installation: attaches to the helmet
- Customization: Can be personalized with the included CCM logo stickers
- Color: clear

Especially during regular training and everyday club activities, a visor that not only fits well but also maintains consistent visibility under changing conditions is essential. The VR PRO CUT CE's straight shape fits seamlessly into your classic gear setup, while the combination of a scratch-resistant design, anti-reflective surface, and anti-fog coating can make all the difference compared to simple standard visors during game play. The included CCM logo stickers add a personal touch without overshadowing the visor's functionality.

Before installation, it's worth taking a quick look to ensure compatibility with your existing helmet.
